Hyrax Maintenance Slowing for Current Cycle

HMWG June-December 2021

No Hyrax Tech Lead

1 developer

2-3 Github Issue Testers/QA

4 sprints complete, 3 remain

Making Adjustments Remainder of 2021

Testing Valkyriized Hyrax app

Hyrax-based application running on a backend that is not Fedora 4

Updating documentation

<https://samvera.github.io>

Code reclamation

Pull Requests from local work

2022 Samvera Maintenance Pledge Drive

You can specify Hyrax!

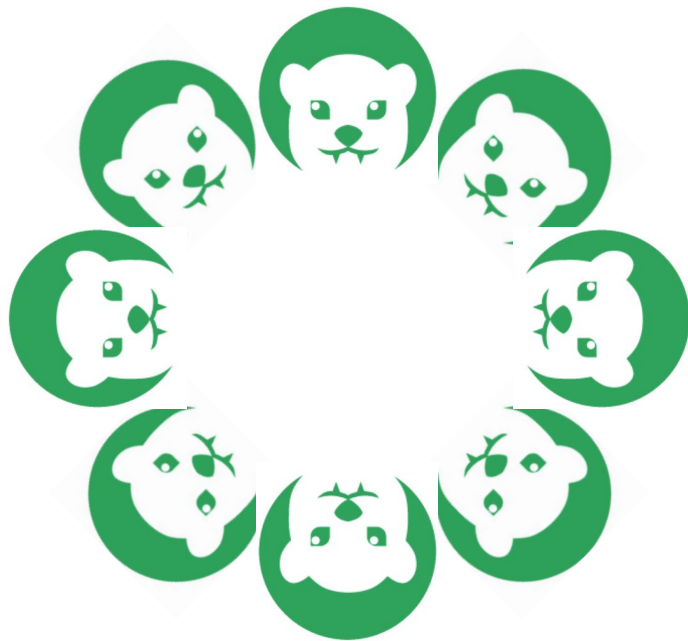

Interested in participating?

[Pledge maintenance hours for next year!](#)

- January-April 2022
- May-August 2022
- September-December 2022

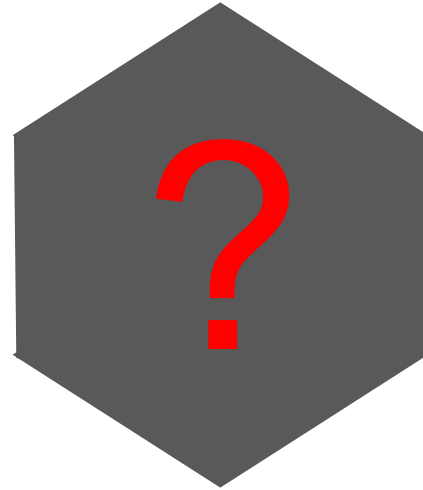

For Hyrax, we've got:

- Bugs!
- Accessibility improvements!
- Documentation!
- Dependency updates!
- Deployment packaging!
- Supporting demo sites!
- If you want new features, there's...
 - Valkyrie work!
 - Allinson Flex!
 - Your local feature that would be great contributed back!

But wait, there's more!

Tag your pledge for Hyrax and we'll also include a limited edition Hyrax Maintenance Working Group (2022) hex sticker!

(Design almost ready to be revealed!)

Thank you!
