
Building a GLAM ecosystem: Human and machine collaborations for digitized collections

October 26, 2020

Abby Shelton & Rob Fox

YOU

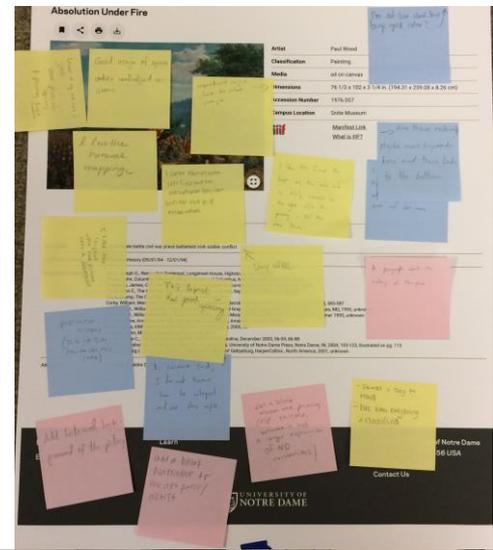

Project Goals

- Increase the discoverability and use of digitized cultural collections at Notre Dame
- Strengthen the collaboration between the campus libraries and art museum
- Further integrate innovative technologies into the library and museum ecosystem (IIF)

Community Engagement

Teams

- Content
- **Metadata**
- **Workflows**
- Technology

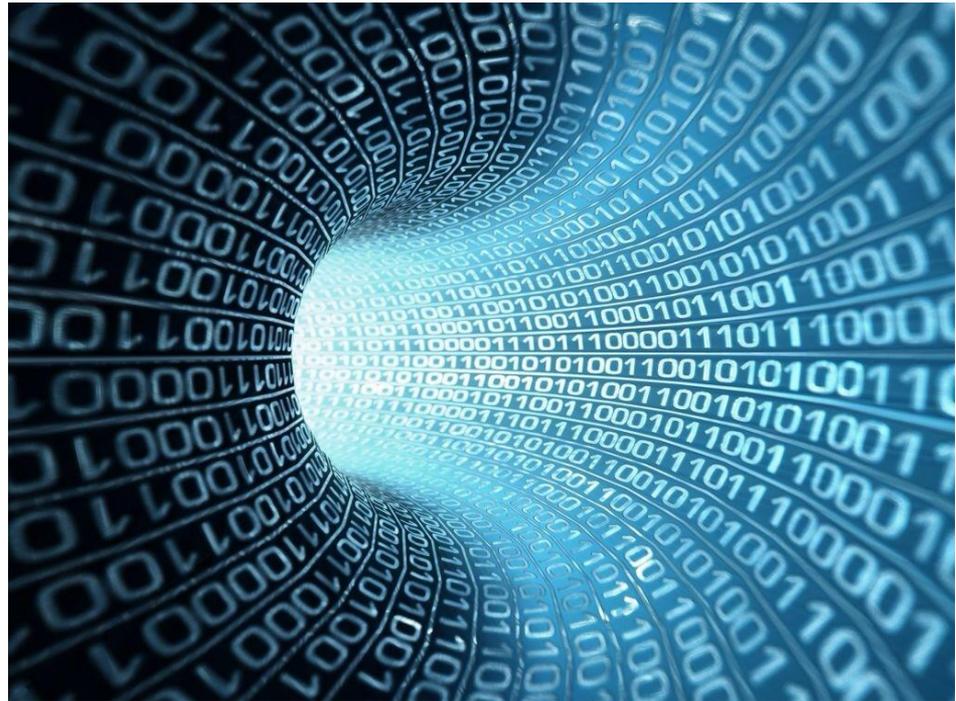

2/24/50

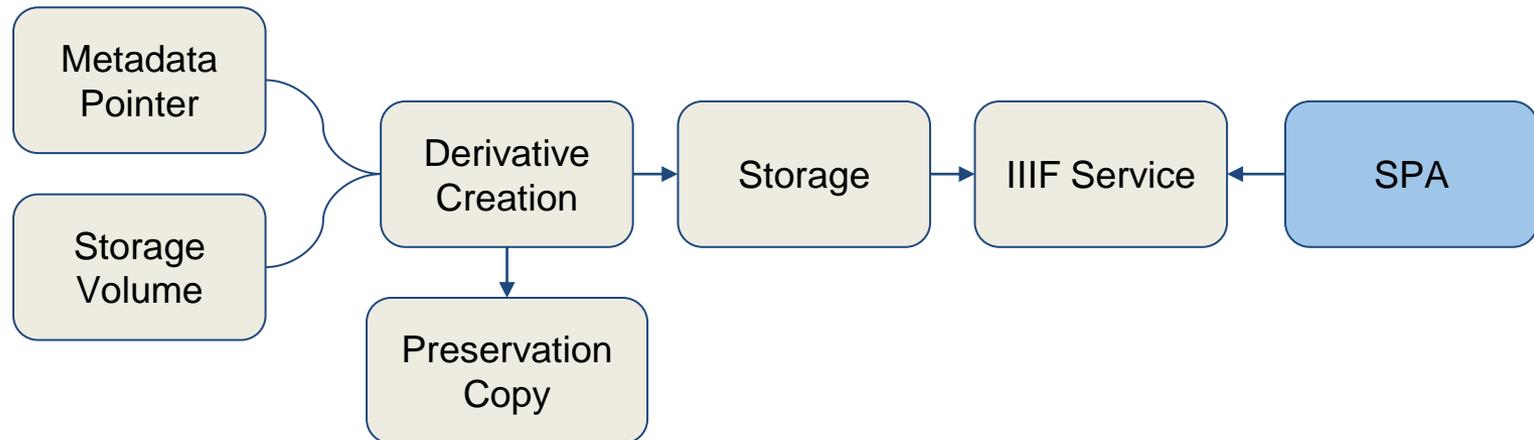

Challenges

- Sourcing Metadata
- Asset management
- Record curation

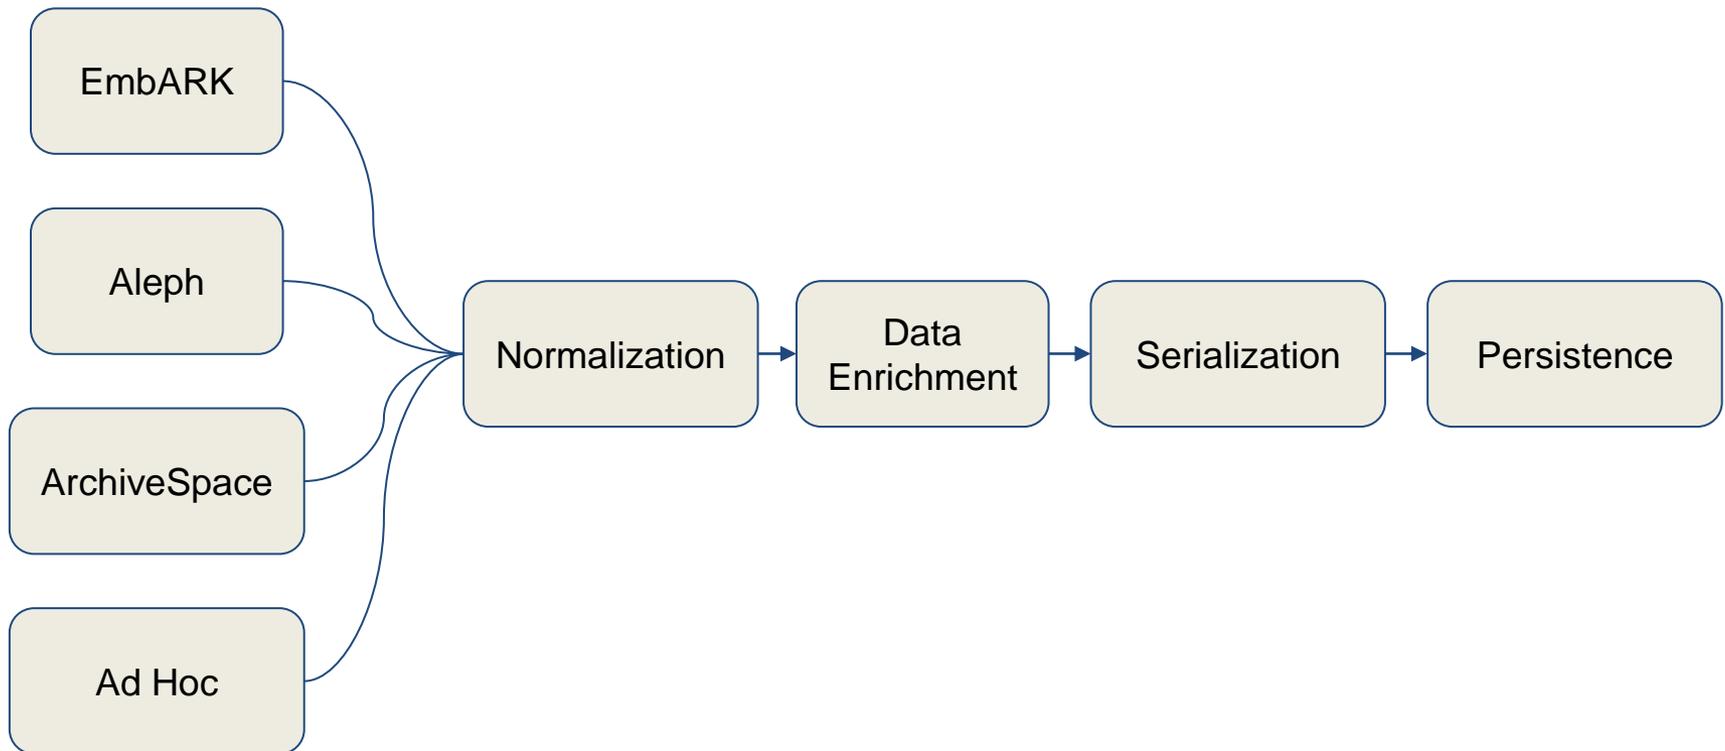

Architecture

Image Processing
